Title : Windows Malicious Software Removal Tool x64 - v5.115 (KB890830)
Client Application ID : MoUpdateOrchestrator
Description : After the download, this tool runs one time to check your computer
for infection by specific, prevalent malicious software (including Blaster, Sasser,
and Mydoom) and helps remove any infection that is found. If an infection is found,
the tool will display a status report the next time that you start your computer. A
new version of the tool will be offered every month. If you want to manually run
the tool on your computer, you can download a copy from the Microsoft Download
Center, or you can run an online version from microsoft.com. This tool is not a
replacement for an antivirus product. To help protect your computer, you should use
an antivirus product.

Title : Windows Malicious Software Removal Tool x64 - v5.111 (KB890830)
Client Application ID : MoUpdateOrchestrator
Description : After the download, this tool runs one time to check your computer
for infection by specific, prevalent malicious software (including Blaster, Sasser,
and Mydoom) and helps remove any infection that is found. If an infection is found,
the tool will display a status report the next time that you start your computer. A
new version of the tool will be offered every month. If you want to manually run
the tool on your computer, you can download a copy from the Microsoft Download
Center, or you can run an online version from microsoft.com. This tool is not a
replacement for an antivirus product. To help protect your computer, you should use
an antivirus product.
